

THE ECO-TERRORISTS ARE THOSE WHO DESTROY NATURE AND WILDLIFE!

Eucalyptitis of the mountains, causing the disappearance of native species, and forest fires caused to speculate with the lands...

Open pit mines and fracking wells, killing the fertile soil and poisoning or shredding each aquifer...

Motorways and high speed to ensure the frantic mobility of slaves and merchandise, at the expense of the safety and welfare of all...

Exploitation and marketing of animals, absurd expenditure of resources...

Underground nuclear cemeteries, patents on food, landfills in river...

NOT THOSE WHO STRUGGLE TO DEFEND THEM!

Every day, dreamers everywhere conspire against this world of misery and desolation. Direct action, blockades, sabotages... these are their weapons for this war.

Some of these people have ended up in prison for refusing to live with resignation and for challenging domination.

We are with them!
